Education

DY Patil International University, Akurdi, Pune, B.Tech in Computer Science Expected 2026
• **Focus:** System Security, Threat Detection, Secure Development, Cloud Security

Technical Skills

Detection & Response: CrowdStrike Falcon (EDR, ITP, SIEM), Trend Micro, Splunk, Wazuh, EDR Investigation (Process Trees, Parent-Child), MITRE ATT&CK

SOC Operations: Alert Triage (L1/L2), Incident Reporting, Detection Policy Tuning, IOC Management, Active Directory Monitoring, Endpoint Telemetry Analysis

Security & Forensics: DFIR Workflow (Containment, Eradication, Recovery), Malware Analysis (PE Studio, VirusTotal), Digital Forensics (Autopsy, FTK Imager), Log Analysis

Offensive Foundations: Nmap, Metasploit, Web Vulnerabilities (SQLi/XSS), Network Enumeration

Networking: Wireshark, TCP/IP Protocols, Tcpdump, Cross-Protocol Attack Correlation, PCAP Analysis

Programming & Systems: Python, Bash, C/C++, SQL, Linux, Windows, AWS, Azure

Experience

Cybersecurity Intern, Amazure Technologies Jan 2026 – April 2026

- Executed **SOC L1 and L2 operations**, performing initial alert triage and deep-dive investigations of endpoint and identity threats using **CrowdStrike Falcon (EDR, ITP, SIEM)**.
- **Documented and reported security incidents**, providing client-facing technical support to clearly explain alerts, detection policies, and remediation workflows.
- Currently developing an automated SOC reporting tool to streamline daily client updates and accelerate communication.
- Deployed and tuned **detection & prevention policies** across enterprise endpoints, analyzing telemetry and authentication anomalies to validate true positives and track lateral movement.
- Engineered automated **incident response workflows** utilizing **Fusion SOAR**, managing IOCs to significantly optimize overall SOC efficiency.

Cybersecurity Research Intern, COEP Technological University Summer 2025

- Developed **StegIntel**, an **AI-driven steganography detection tool** utilizing **Random Forest classification** and automated forensic report generation.
- Achieved acceptance for the StegIntel research paper to be presented at the **2026 IEEE-INSECT conference**.
- Engineered **LSB brute-force decoding**, payload extraction, and automated post-processing for structured analysis (ZIP, PDF, DOCX).
- Expanded detection capabilities by researching and experimenting with **CNN-based feature learning** for advanced steganalysis.

Web Development Intern, Agrawal Creations July – Sept 2024

- Developed a secure admin control panel integrating robust **authentication and input validation** using **PHP and MySQL**.
- Implemented stringent **secure coding practices** to successfully mitigate common web application vulnerabilities.

Certifications

Microsoft Certified: Security, Compliance and Identity Fundamentals (SC-900) Completed

Penetration Testing Path, Hack The Box In Progress
